## Hydraulic rear outlet 600 series:

In Avant 600 series this valve section is normally free. With a gauge fitting A and a plug B.

This section can be used for the single function rear outlet option: A34014 or the A47774 double function.

Hoses P1 and P2 will be lead to the rear accordingly the draft next page. The free return hose will be lead to the suction collector piece of the hydraulic oil tank
